Psychology of Sport and Exercise

Psychology of Sport and Exercise is an international forum for scholarly reports in the psychology of sport and exercise, broadly defined. Manuscripts will be considered for publication which deal with high quality research and comprehensive research reviews. The journal is open to the use of diverse methodological approaches. Reports of professional practice will need to demonstrate academic rigour, preferably through analysis of programme effectiveness, and go beyond mere description. All manuscripts should be presented as concisely as possible, and our preference is to receive manuscripts that are 30 pages or less (APA format). For longer manuscripts, authors should contact the appropriate Editor in Chief prior to submission with a clear justification for the need for a longer manuscript.

Editors-in-Chief

N. Ntoumanis, School of Psychology & Speech Pathology, Health Psychology & Behavioural Medicine Research Group, Curtin University, GPO Box U1987, Perth, 6845, Western Australia, Australia
